1. The Vienna representatives of the Hungarian Mineral Oil firm of Chemolimpex have sold 5,000 tons of Pakura (Fuel oil) to the Yugoslav Shipping Agency. Negotiations for a further 5,000 tons are in progress. [REDACTED]
2. The Pakura is brought to the Meszhart station in Vienna by rail tankers and is pumped into a Yugoslav river tanker. Yugoslav ships in Vienna replenish their fuel tanks from this tanker.
3. However, at the same time as Hungary is exporting Pakura to Yugoslavia, she is obliged to import it from the Soviet Oil Administration (SMV) in Vienna. During April 1954, 2,000 tons of Pakura were transported from Lobau to Chemolimpex in Hungary. Chemolimpex stated that if SMV could not deliver in the shortest time possible, the factories in Csepel would have to stop production.
